

STUDENTS: HELP CREATE THE NEXT *BLUEPRINT* FOR A *SUSTAINABLE CAMPUS*

Join the **Student Environmental Center's Blueprint Breakouts!**
At Breakouts we will discuss sustainability issues on our campus. We'll be thinking about things on a small and large scale, from loop buses to climate change, and everything in-between. Students are welcome to join any or all events.

The goal is for us to identify critical issues on our campus and ways that we can address these issues as students.

Conversations and ideas from the Blueprint Breakouts will shape the **Blueprint for a Sustainable Campus 2017-2018!**

No "expertise" is needed! Just bring yourself and your experience as a UCSC student.

WEDNESDAYS 5:30 - 7:30 PM
@ RACHEL CARSON RED ROOM
