

Expansion Policy for Greek-Letter Organizations At the University of California, Santa Cruz

In response to a rapidly growing interest in Greek-letter organizations at UC Santa Cruz, the Office of Records for Greek-Letter Organizations, Student Organization Advising and Resources (SOAR) invited all Greek-letter organization student leaders to participate in establishing a Council that is responsible for assessing the capacity of Greek-Letter life on campus, as well as instituting a process of University recognition for interested groups.

Expansion will be coordinated by the Expansion Council, which consists of eight (8) members: Inter-Greek Council President, PanHellenic Council President, Four (4) active student members of the Greek-Letter Community, SOAR advisor, and the Associate Director of SOMeCA. The four (4) active student members each represent a cultural, local, pre-professional and National Pan-Hellenic organization. All council members with the exception of the Associate Director of SOMeCA is a voting member. A majority vote is required in order to approve expansion for any organization, with a minimum quorum of 5 total votes required.

UC Santa Cruz operates with an assumption of non-expansion unless a need has been determined to change this assumption. Enrolled student organizations must contact the *Student Organization Advising and Resources (SOAR)* Office to determine the institutions current status regarding when expansion will be allowed before initiating any expansion efforts.

When it is determined that A) a new organization is needed to strengthen the Greek-Letter Organization community within the Councils and B) that sufficient resources exist to expand, the procedures outlined below will follow. The purpose of these procedures is to ensure expansion of the Greek-Letter Organizations follows a carefully developed plan that aligns with the goal of expanding. All actions in the area of colonization/expansion must be approved and sanctioned by this committee.
